REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Claims 1-10, 12-15, 23-30, 32, 34, 36-39 and 41-44 are allowable over prior art of record.

The Examiner has found that the prior art of record does not render obvious the claimed limitations in combination with the specific added limitations as recited in independent claims and subsequent dependent claims.

One such prior art of record is a U.S. Patent No. 6,901,519 to Stewart et al. teaches a network is protected from e-mail viruses through the use of a sacrificial server. Any executable programs or other suspicious parts of incoming e-mail messages are forwarded to a sacrificial server, where they are converted to non-executable format such as Adobe Acrobat PDF and sent to the recipient. The sacrificial server is then checked for virus activity. After the execution is completed, the sacrificial server is rebooted.

A second prior art of record is a U.S. Patent No. 6,336,124 to Alam et al. teaches a computer implemented method of converting a document in an input format to a document in a different output format is disclosed. The method generally comprises locating data in the input document, grouping data into one or more intermediate format blocks in an intermediate format document, and converting the intermediate format document to the output format document using the intermediate format blocks.

However, none of the prior art of record provides rationale individually or in combination the limitation of at least "receiving a certain electronic file having a first file format having a first file extension and containing a computer virus; and prior to the certain electronic file being made

available for viewing by the intended recipient, converting the certain electronic file to a second file format having a second file extension that is different from the first file extension of the first file format...wherein it is determined when the first file format is one of a word processing file format type and a graphics file format type, the second file format is one of a word processing file format type and a graphics file format type, the second file format being at least one of a TXT file format, a RTF file format without embedded objects, and a HTML file format without scripts...”, as in claim 1. Thus this claim has been found to be allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”

Examiner acknowledges the IDS filed 05/19/2009.
